

# Henry Domke

for Skyline Design

Skyline Design

Architectural Glass & Film

## **Nature art exclusively for Skyline Design architectural glass.**

Believing that patients who are exposed to nature are less stressed and heal more quickly, Henry Domke specializes in creating nature art for healthcare settings.

His training in medicine as well as in art helps him create fresh views of nature that can be found in hospitals across the country.

## **Over 8,000 high-resolution photographs**

Choose from more than 8,000 high-resolution nature photographs of different regions, seasons, and themes.

Images include landscapes, flowers, trees, grasses, water, sky, wildlife, and more.
